

An ideal soothing solution that soothes irritated skin

Hydra Soothing Mask Pack

POINT

01

Hydration Recharge! **Soothing & Moisture Solution**

It delivers moisture and soothes irritated and sensitive skin with a soothing and moisturizing solution formulated with carefully selected ingredients and a soft, hypoallergenic 100% Cupro fabric that adheres closely to the skin.

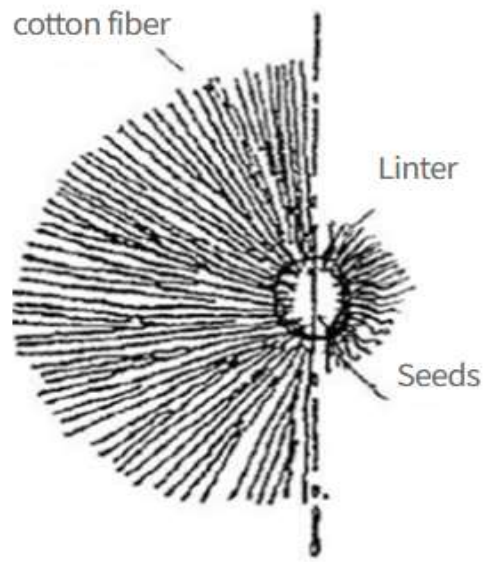

Excellent fit and comfort of eco-friendly **100% Cupro fabric**

Made with 100% Cupro fabric, it **offers a soft touch, comfort, and excellent adhesion** to the skin .

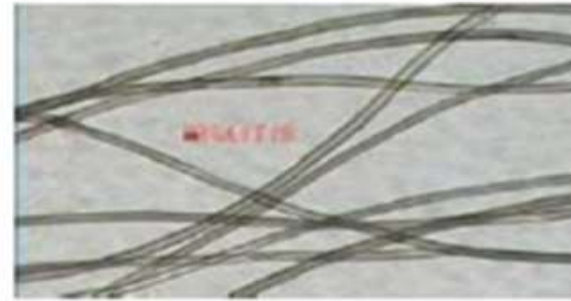

What is Cupro 100%?

Cupro is a 100% cellulose fiber made from cottonseed linters and is classified as a regenerated fiber. Cottonseed linters are high-quality, fine fibers with a round cross-section found in cotton seeds.

Cupro refers to a new concept material created by extracting these linters and specially treating them with environmental considerations in mind. Cupro is an eco-friendly fabric that is naturally biodegradable in soil and water; it offers a soft touch and high adhesion during use.

Fragrance-free purity as it is

This is a fragrance-free mask pack **that preserves the purity of the cooling soothing solution without adding** artificial fragrances or separate scents to eliminate even the irritation caused by fragrance .

PRODUCT INGREDIENTS

Key ingredients of the product

beta-glucan

It is a substance found in the cell walls of mushrooms, grains, and yeast that helps protect the skin, strengthen the skin barrier, and improve skin texture.

Panthenol

It prevents moisture evaporation, helping the skin retain moisture on its own.

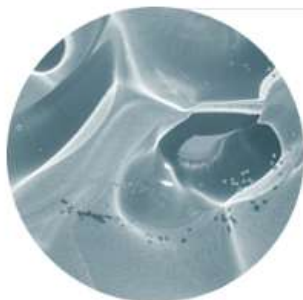

allantoin

It is an ingredient mainly extracted from comfrey and oak, which improves rough skin and helps with moisturizing and strengthening the skin barrier.

Hyaluronic acid (sodium hyaluronate)

It prevents moisture evaporation from the skin and helps maintain proper hydration.

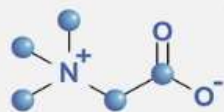

Hydrolyzed Collagen

It is called "Marine Collagen" and helps maintain hydrated skin by supplying moisture to the skin .

Honey extract

It provides moisture to the skin.

Betaine

Betaine

It helps moisturize the skin.

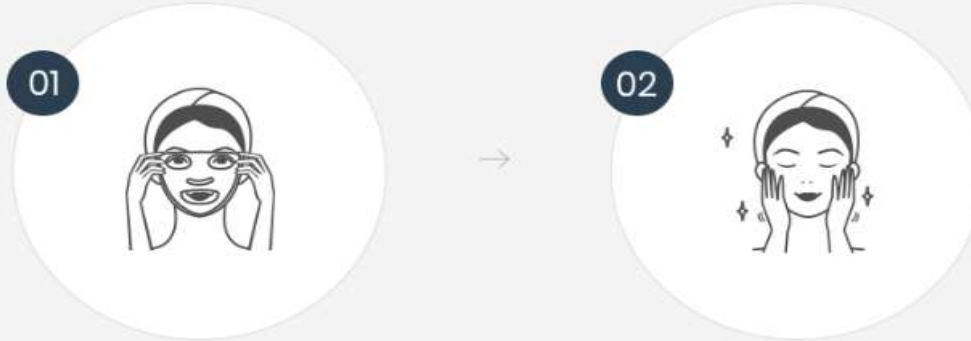

Centella asiatica extract

Also known as tiger grass, it helps prevent dryness.

HOW TO USE

How to use the product

After cleansing, use Carecella Hydration Balance Toner to refine your skin texture, then open the product and apply it evenly to your face, avoiding the areas around your eyes and mouth.

After resting for 15 to 20 minutes, remove the sheet and gently pat the remaining essence on your face to help it absorb.

Precautions for use

- ✓ It is typically used 1 to 2 times a week, but can also be used frequently.
- ✓ It can be used on all skin types, including dry or sensitive skin.
- ✓ The cooling sensation is further enhanced when used after refrigeration.

Recommended **for this type of skin** .

When you feel **dryness and tightness in your skin**

When the skin turns red due to UV rays, etc.

If the skin is irritated after treatments such as peeling

When rapid cooling care is needed

Awarded Excellent by the German Dermatological Institute
Dermatest

We commissioned 24-hour, 48-hour, and 72-hour human skin application tests from Dermatest, the world's leading German dermatological research institute, and **obtained an "Excellent" rating indicating "no skin irritation . "**

BRAND STORY

BRAND STORY

Carecella is a compound word formed from "Care," meaning "to heal," and "Cella," the Latin word for cell, signifying the starting point for restoring the skin's natural beauty.

It is a home beauty cosmetics brand that develops products tailored to individual skin types using plant-based ingredients found in nature and offers professional care guides.
