

CareCella ECOER SNOW Sulfur Soap

# Carecella Eco Earth Snow Sulfur Soap

Keep your whole family's skin clear and clean with mild handmade sulfur soap .

POINT 01

## Handmade soap made with care

It is produced by reacting coconut oil with caustic soda for saponification, followed by aging at a low temperature . (CP Soap)

# Contains **more than 100 ppm of sulfur**

This is a soap made using Himalayan rock salt containing sulfur.

※ Carecella Eco Earth Snow Sulfur Soap contains more than 100 ppm of sulfur, and as sulfur is a natural substance, there may be a margin of error in content with each production run.

Manufactured with Himalayan rock salt containing sulfur, the soap contains more than 100 ppm of sulfur.

## What is Himalayan rock salt?

It is a petroglyph formed from salt that remained after seawater evaporated when the sea was uplifted into the ground due to tectonic shifts 250 million years ago. Over a long period of time, it was compressed under high temperature and pressure, naturally containing a large amount of sulfur.

### Benefits of sulfur

We humans cannot live without sulfur (S). This is because sulfur is the eighth most abundant element in the human body. Since ancient times, mineral sulfur has been frequently used as a treatment for skin diseases, and people sought out sulfur hot springs as a secret remedy when afflicted with such conditions.

The *\*Donguibogam\** states, “Sulfur is extremely hot in nature, sour in taste, and toxic; it treats abdominal masses and cold disorders caused by evil spirits, and strengthens and invigorates the muscles and bones.” This indicates that sulfur has been widely manufactured and used in various ways in Korea for a long time.

[Naver Knowledge Encyclopedia] Sulfur (Encyclopedia of Korean Culture, Academy of Korean Studies) / Limited to raw material characteristics.

## Contains **yogurt extract** **for** skin health

Yogurt contains Bifidobacteria, which not only helps prevent skin troubles but also makes the skin healthier.

Main ingredients of yogurt: Vitamin A, Vitamin B2, calcium, manganese

01 Rich in protein and vitamin B2, it is good for skin elasticity and has excellent moisturizing effects, making dry skin hydrated.

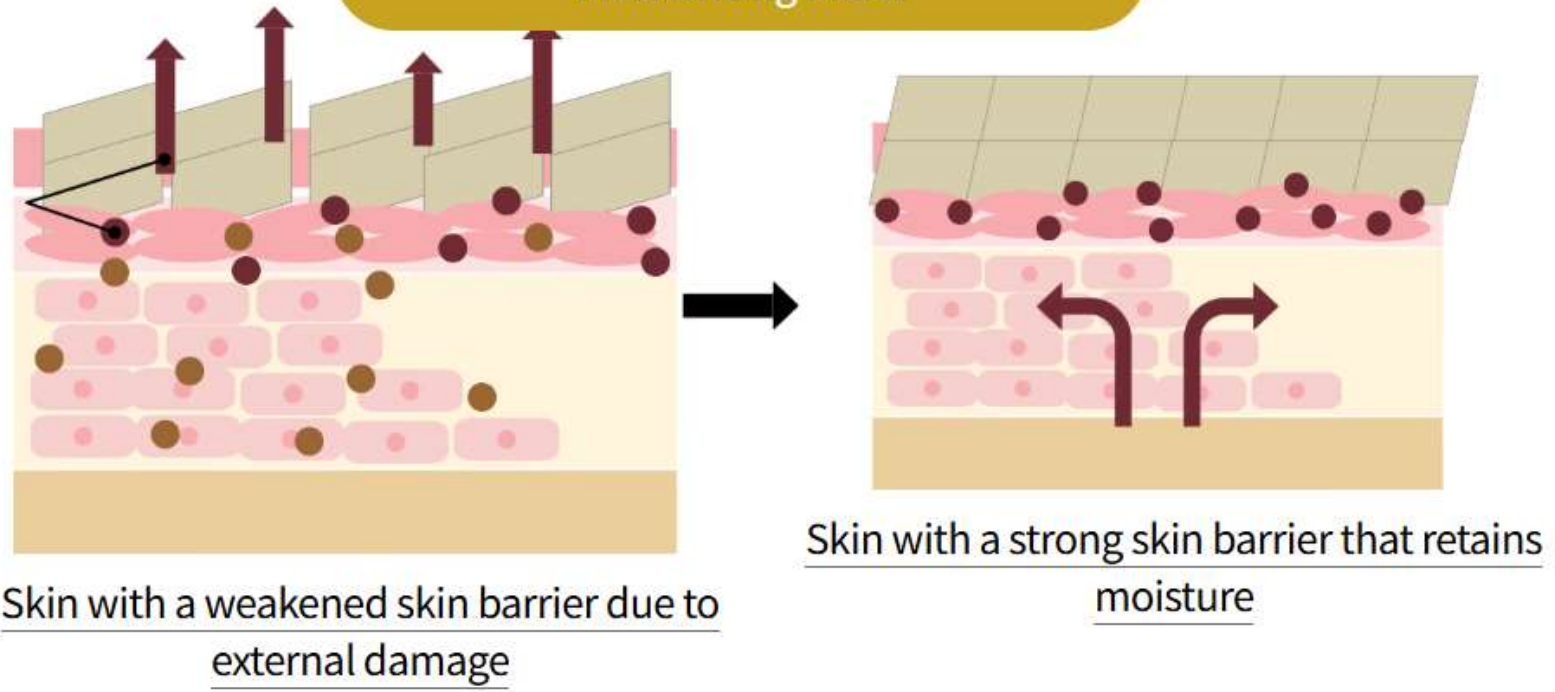

---

02 The lactic acid contained in yogurt contains AHA, which is effective for exfoliating the skin. Additionally, the lipids soften the stratum corneum, allowing for the removal of dead skin cells without irritation, resulting in clear skin.

---

03 The lactic acid bacteria in yogurt have a skin whitening effect.
